# OVERVIEW

## WHO WE ARE

The Hewed Dost Group (HDG) is Afghan-owned and operated group of companies; we are the most reliable ground transportation and fuel related services provider in Afghanistan. HDG began first fuel transportation in 2003 in Afghanistan and soon after became as a specialized multi-national fuel solutions provider.

With our complex fuel network, owned transportation and fuel storage facilities, HDG demonstrates daily our capability of meeting all fuel needs of our customers.

We are the pioneers in our industry, with more than 20 years of experience in developing and operating customized dry transportation, fuel delivery, fuel storage services, fuel supply, petrol stations and constructions services. During those 20 years, we have invested heavily in developing a fluid and efficient supply chain, resulting in timely, reliable and cost-effective services to our customers.

## OUR VISION

Our aim is to impress our customers. Therefore, our day-to-day work is based on exceptional quality of service. With a seamless organization all over many countries, we have created the optimum conditions for successful mission accomplishment. Our staff's expertise and solution-oriented approach are impressive, yet we constantly strive to improve and develop proactively. Our distinctive company profile stands out both internally and externally.

# FUEL STORAGE FACILITIES

HDG Bulk Fuel Storage Facilities are located in strategic areas throughout the country. The prime location of the storage facilities allows us to easily meet customer requirements with on time delivery and fuel storage needs. All of our storage facilities comply with all safety, security, environmental, quality and standards requirements and meet the minimum requirements of the American Petroleum Institute (API). Each facility is built to API standards and has advanced fire suppression and firefighting systems.

Our goal at HDG is simple whether you are purchasing product from us or if we are storing your product, you can be assured with the quality, safe and responsible transaction each time. Let us put our many years of petroleum knowledge to work for you today.

36 million liters  
9 vertical tanks  
12 loading zones  
Railway loading site

### KABUL

18 million liters  
6 vertical & 20 horizontal tanks  
6 loading zones

### NEW KABUL

60 million liters  
12 vertical tanks  
14 loading zones *with concurrent loading and downloading capacity*

# TRANSPORTATION

## HDG TRANSPORTATION

HGD provides reliable and cost-effective transportation and logistics solutions for our customers throughout the most hostile and remote parts of Afghanistan. No matter what trailer type, even heavy haul transport and temperature control trucks, we move everything from fuel through to commercial goods and construction machineries.

Unlike most other companies, HDG owns the vehicles directly and operate them with its own highly trained driver personnel. Our fleet is continually reviewed and upgraded to ensure that customer requirements are met, safety standards and improvements are addressed, and equipment are maintained in a durable status and available for service.

We own and operate a network of maintenance facilities throughout Afghanistan. Our trucks undergo the most vigorous inspections prior to dispatch and are maintained in top condition.

# FUEL SUPPLY & DISTRIBUTION

## **HDG is Afghanistan's leading supplier of bulk diesel, bulk gasoline and jet fuel.**

We maintain supply and distribution agreements with refineries in Turkmenistan, Uzbekistan, and Pakistan to supply our comprehensive fuel network, HDG owned transport trucks and storage facilities throughout the country. This enables us to offer our customers low cost, high grade fuels to cover all their small or large fuel needs. We provide fuel to commercial, government, and wholesale customers of all sizes and to every location with onsite delivery nationwide.

### **Large Fuel Distribution**

HDG is currently one of the biggest providers of fuel for Government and large industrial companies. Our own storage facilities and plenty 20ft and 40ft epoxycoated tanker trucks, making it possible to provide your organization with all types of fuel at any location throughout Afghanistan.

### **Small Fuel Distribution**

Our fleet of modern delivery trucks have calibrated pump meters and plenty of hose to reach those out of the way fuel tanks. We can supply your fuel needs on a daily, weekly, bi-weekly or monthly basis. Villas, construction sites, ministries or military bases: we are your fuel supplier. Our tankers come to your residence or place of business and fuel your vehicles and generator tanks with diesel or gasoline. All fuels are kept on completely separate hose systems to eliminate cross contamination. We can perform fueling at any time of the day or night according to your schedule.

## Advantages of our distribution:

- Decreased lost productivity due to time waiting for fuel to arrive
- Cost Control
- Customized fuel programs
- Customized fuel reports
- Certified metered deliveries

Our on site delivery program supports the ability to deliver large and small quantities of fuel 24 hours a day, 7 days a week. This availability has allowed us to develop the largest onsite fueling service in Afghanistan.

## Quality is built into every action

We believe that there is very little more important in the fuel business than ensuring that quality standards are met with each transaction. Our trained fuels staff test continually throughout the receipt and delivery process to make sure that what our customers want is what we deliver every time.

We maintain our own laboratory facilities at the terminals and conduct quality control spot checks at each step. HDG's procedures are time-tested and proven to avoid contamination of good product with bad product.

# PETROL STATIONS

The Hewad Dost Group has covered the most important highways throughout Afghanistan with their company owned 24 hour petroleum stations. Our modern petroleum stations also include a car wash, supermarket, mosque and a restaurant. Our one-stop shopping lets you complete many tasks at once. Come visit us for a nice, hot cup of Afghan tea while you get your vehicle washed.

With the HDG brand, you can always expect superior customer service and value for your money.

# CONSTRUCTION

## HDG CONSTRUCTION

The activities of **HDG** are as complex as the challenges facing the company and the demands placed upon it. Our construction division's three lines of business form the cornerstone of a range of services which covers the entire value-added chain in the construction industry: Fuel Storage Construction, Building Construction & Civil Engineering; Road Construction; and Special Projects like Hydro Power stations or Irrigation and water supply systems.

Next to Fuel Storage Construction, Road Construction, the Building Construction & Civil Engineering segment is the most important business field for **HDG**. The range of services includes projects of different sizes and as varied as excavation, commercial, industrial and residential buildings and major bridge work.

We draw heavily on our experience gained over the past 20 years in more than 100 projects successfully completed: The construction of schools and multi-purpose barracks, geotechnical services, road constructions, restoration of buildings as well as construction of antenna towers all over Afghanistan, just to name a few of them.

This solid base of references and professional experience provides our current teams with the obligation and the motivation to perform even better in the future.

We serve a wide range of clients in the public and private sectors: governments, industrial, general building and civil engineering contractors, property developers etc.

Initially a subcontractor, we are now happy to be the main contractor or partner. HDGs continued improvement of the Group's technical capabilities which fundamentally rely on a constant commitment to personnel training and recruitment of new employees who bring their skills and experience to our operations.

- Schools

# DEVELOPMENT

## A partner in the international effort to build a strong Afghanistan

The future of Afghanistan is vested in our country's economic sustainability over the long term. To that end, HDG participates in international forums around the globe to identify foreign businesses with the capacity and willingness to invest in Afghanistan's businesses and the country's future. We know that the strength of Hewad Dost Group, when combined with the strengths of foreign partners, builds the future of Afghanistan and better the lives of our countrymen.
